Tecnam P2006T Twin certified for Passenger Transportation

Tecnam announced today that the Tecnam P2006T Twin has successfully achieved certification to enable it to carry commercial passengers.

Already firmly established as the multi-engine aircraft of choice bringing affordable multi-engine flying to aero-clubs, flying schools, syndicates and private aircraft owners around the world, Tecnam are aiming to promote the P2006T Twin for charter and air-taxi usage too.

The first Tecnam P2006T Certificate for Passenger Transportation has been achieved by Russian based Chelavia.

Established in 2003, ChelAvia currently operates nearly 100 Tecnam aircraft and is actively engaged in training commercial pilots for many Russian based airlines in particular.

The Ministry of Transport of the Russian Federation issued Chelavia decree d/d 04.02.2003 □ 11 which authorises Chelavia to use its large fleet of Tecnam P2006T Twins' for commercial passenger and freight activity.

This approval completes the "Certification Requirements to individual and legal entities carrying out commercial air transport operations. Certification procedure" and has enabled Chelavia to add the Tecnam P2006T to its Air Operator's Certificate to enable it to offer the aircraft for both passenger and airfreight operations.

Chelavia report that its customers value the P2006T's cabin space and comfort in particular. Coupled with the P2006T's exceptional low cost of operation, speed and range plus its versatility in the delivery small-scale cargo and parcels, the Tecnam P2006T is providing a new a profitable source of revenue generation.

TECNAM traces its roots back to the activities of the Italian brothers Luigi and Giovanni Pascale, who developed and produced innovative aircraft soon after the end of WWII (1948) and have continued ever since to create original models that gained worldwide recognition under the name Partenavia. Established in March 1986, Costruzioni Aeronautiche TECNAM now operates in three production facilities. The Casoria facility is located adjacent to Naples Capodichino Airport. The Capua facility is located adjacent to the “Oreste Salomone” Airport. Recently a new facility was established in Sebring, Florida, USA to serve and support the needs of Tecnam North American based owners and operators.
