Re: Tecnam P2008 Addition to Transport Canada's Listing of Models to be Registered as Advanced Ultra-Light Aeroplanes (AULA)

Dear Mr. Russo,

The *Manufacturer Specified Maintenance Program* that you will be providing to owners to maintain the aeroplane in a "fit for flight" condition, and the Declaration of Compliance dated 18 April 2017, fulfill the requirements of Section 3.2 *Registration* of the Transport Canada Civil Aviation Ultra-Light Transition Strategy.

The P2008 aircraft manufactured by Costruzioni Aeronautiche Tecnam Srl will be included in the Listing of Models Eligible to be Registered as Advanced Ultra-Light Aeroplanes (AULA).

The P2008 aircraft may be registered in Canada as of this date.

Yours truly,

Craig Dennis
