TECNAM P2008 now available in Canada

Tecnam announced today that **Transport Canada** has confirmed that the **Tecnam P2008** has been added to the Eligible to Be Registered Advanced Ultralight Listing. The 2 place composite fuselage and metal wing P2008 that has enjoyed tremendous success across the globe as an US-LSA and CS-VLA will now be welcomed in Canada as an advanced-ultralight.

The P2008 joins the P92, P96, P2002 Sierra, and P2004 Bravo advanced-ultralight Tecnam models available in Canada. Together with the P2006T twin and P2010 standard category models Canadian owners now have access across the Tecnam product line.

The P2008 has found a place with both personal touring and flight schools alike combining a balanced flight control feel, comfortable cross country ride and room to stretch out. For more information about the P2008 visit: <http://tecnam.com/us/aircraft/p2008-canada-aula>

"We have seen considerable interest in the P2008 from pilots in Canada in the past two years and we are pleased that we can show our commitment to the entire North American market by making the P2008 available to those customers." said **Paolo Pascale, Tecnam's CEO**.

About TECNAM; "Quality Aircraft since 1948"

TECNAM's roots go all the way back to the Italian brothers Luigi and Giovanni Pascale who began to develop and produce innovative aircraft soon after the end of WWII. Since those early beginnings, the family has continued to create original models, first gaining worldwide recognition under the name Partenavia, which translates as "Naples Aviation".

Costruzioni Aeronautiche **TECNAM** was established in March 1986 and now operates in three production facilities. The Casoria facility is located adjacent to Naples' Capodichino Airport while the main factory is next to the "Oreste Salomone" Airport in Capua. Recently a new facility was established in Sebring, Florida, USA to serve and support the needs of Tecnam's North American-based owners and operators.
