TECNAM PRESENTS P2002 Sierra MkII EU 600Kg

Friedrichshafen, Germany - Tecnam announced today the latest edition of the popular low wing two-seater P2002 Sierra.

The Tecnam P2002 Sierra MkII is has been developed for the new European Union 600kg ULM category and is immediately available for delivery to those countries where this category is approved by their local Civil Aviation Authorities.

The P2002 is already available in Tecnam product range as an Advanced Ultralight and in the UL/LSA category.

With a MTOW of 600 kg, the Sierra MkII features superlative performance and flying qualities, confirmed by hundreds of P2002 sold throughout the world. The ease of piloting and maintenance make this aircraft an excellent solution for training in flight schools, but also fun for private use. The option to use multi-fuel makes this aircraft even more flexible and cost effective.

This new version of the Sierra MkII is available with latest glass Garmin G3x avionics, with the twin touchscreens integrating with the GTR GPS/Nav/Comm series, to provide a fully glass-suite solution. A standard analogue pack option is also available.

Offering a sporty style interior and different paint schemes, the aircraft is available also with parachute to be compliant with the EU 600 KG category.

Walter Da Costa Tecnam Global Sales and Marketing Director: “We are so proud to have this new P2002 ready for the EU 600kg category. TECNAM as the leader will be playing an important role offering a good platform in Europe. For us this is the proof that Tecnam is able to offer a real innovative solution “one fleet solution”, this is our strategy.

About TECNAM; "Quality Aircraft since 1948"

TECNAM's roots go all the way back to the Italian brothers Luigi and Giovanni Pascale who began to develop and produce innovative aircraft soon after the end of WWII. Since those early beginnings, the family has continued to create original models, first gaining worldwide recognition under the name Partenavia, which translates as "Naples Aviation".

Costruzioni Aeronautiche **TECNAM** was established in March 1986 and now operates in three production facilities. The Casoria facility is located adjacent to Naples' Capodichino Airport while the main factory is next to the "Oreste Salomone" Airport in Capua. Recently a new facility was established in Sebring, Florida, USA and in Australia to serve and support the needs of Tecnam's local owners and operators.
